PROFILE

To obtain the position of a Frontend Developer where I can utilize my skills and knowledge in software development and as a Critical Thinker and Problem Solver. Contributing to the growth and success of the company, that allows me to utilize my skills in programming and engineering.

PROJECTS

Created an E-commerce Website for a local perfume business.

- Created a visually appealing and user-friendly website prototype using modern design principles and best practices.
- Transformed the company's website by creating a responsive, mobile-friendly design with the aim of improving user experience and reduce loadtime by at-least 50%, while generating more leads and average session duration by 30%.
- Collaborated closely with the perfume dealer to understand their business goals and tailored the website to showcase their products effectively.
- Presented the website prototype and impact analysis to key stakeholders, generating excitement and support for potential funding or partnership opportunities.

Built a Photo Gallery App.

- Created a dynamic photo gallery app on the StackUp platform, showcasing a keen eye for user-centric design and seamless functionality. Integrated features like intuitive navigation, image categorization, and social sharing. I designed, implemented, and maintained the app, demonstrating strong technical prowess and project ownership.

EXPERIENCE

CAD USER, 3D AFRICA HUB UNN, 2020

Created, printed and modified drawings in Fusion360 and Autodesk Inventor. Collaborated with design and engineering staff to solve CAD related issues. Designed mechanical drawings.

PLASTIC RECYCLYING, TONG DA IND, 2021 and 2022

Assisted in the factory recycling process of waste plastics. Material selection, crushing, washing, melting and packaging of pellets in the factory.

STACKUP.DEV, 2023

Engaged as a frontend and web3 developer, effectively balancing learning and earing. Collaborated on designing and implementing user-friendly interfaces, contributing to the teams projects. Gained hands-on experience in web development and web3 concepts while maintaining a commitment to both personal growth and impactful contributions to the companysobjectives.

EDUCATION

University of Nigeria, Nsukka — B.Eng in Mechanical Engineering, 2017-2021

SKILLS

- Proficiency in Computer Aided Design using Inventor and Fusion360
- Proficiency in Solidity, JavaScript, HTML5, Reactand CSS3.
- Experience working with Ethereum, and blockchain platforms
- Proficient in web development, including web3.js applications and decentralized applications (dApps).
- Excellent collaboration, communication, and problem-solving skills.
- Strong problem-solving skills and ability to learn new technologies quickly.
- Excellent communication and teamwork abilities.
- Ability to work independently and complete tasks in a timely manner.
